<https://github.com/PercyJacker>

WORK EXPERIENCE

Internship - Website Development

- **Nullclass** / 1 Jan - 31 Jan
- Developed a job portal website using the **MERN** stack that incorporated features like **Google Maps** for location tracking, a **payment gateway** for job listings, and **certificate generation** for completed courses.
- Implemented user-friendly design and ensured secure transactions and smooth payment processing.

Portfolio Website Development

Personal Project / 15 Feb - 30 Feb

- Designed and built a fully responsive portfolio website to showcase skills and previous work.
- Used modern web technologies **React** , **framer-motion** , **GSAP** to create an interactive and visually appealing user experience.

Internship - Cloud Infrastructure Consultant

AWS / 1 Mar - 30 Mar

- Advised 3+ teams on infrastructure upgrades, **improving load times by 40%** and reducing downtime by 25% through scalable server and pipeline solutions.
